

EASAV presents a 2-part webinar series for vets & RVTs...

Scales, Feathers or Fur: You can help the exotic pet patient

Speaker: Eryn Hanak, DVM

Seminar Topics:

1. Rabbits Gastrointestinal Syndrome (RGIS): A symptom, not a diagnosis
2. Rodents: They're all the same, right? Selected diseases & treatment
3. Exotics: Respiratory distress in the exotic animal
4. Exotic pet euthanasia
5. Reptiles: Getting a diagnostic or two, and then what?
6. Birds: The trouble with eggs and emotions

AbVMA, CVBC & SVMA-approved for 6 hours of CE Credit

About Dr. Hanak: Dr. Eryn Hanak graduated from the first class at the University of Calgary Faculty of Veterinary Medicine in 2012. During her vet training, she developed a love of zoo, exotic, and wildlife animals and upon graduation moved to Ontario, where she could practice with a high exotics patient caseload. She returned to Alberta to continue working with all different kinds of species, and started working in emergency medicine as well in 2014. As the procedures and care she was providing for her exotic patients became more advanced, she decided to pursue additional training and completed an internship in Zoo, Exotic, and Wildlife Medicine at the Western College of Veterinary Medicine in 2019. Currently, she enjoys combining her love of emergency, exotics, and advanced diagnostics at Pulse Veterinary Specialists & Emergency.

Seminar Date: Sunday, March 7, 2021
