

EASAV is pleased to announce CE for veterinarians...

## Intraoral Radiographic Interpretation:

### An essential skill for a rock-star dentistry program

**Speaker:** Christopher Sauve, DVM

**Seminar Abstract:** Dr. Sauve will review how to interpret dental (intraoral) radiographs in a systematic fashion & how to implement these skills in a case-based discussion.

**AbVMA-approved for 2 hours of CE Credit**

**About Dr. Sauve:** Dr. Christopher Sauvé graduated from the WCVI in 2012 and was honoured with the clinical proficiency awards for top fourth year student in both radiology & anesthesiology. After graduation, he returned to his hometown of Edmonton to practice emergency medicine at the (formerly named) Edmonton Veterinarians' Emergency Clinic. He took a position at the Animal Medical Center where he found his new professional passion of veterinary dentistry. In 2016, Dr. Sauvé began a three-year residency at Companion Animal Dentistry of Kansas City. Under the training of AVDC diplomates Dr. Susan Crowder and Dr. Scott MacGee, he learned the principles of dentistry & oral surgery. Dr. Sauvé completed his residency in June 2019. He has had an article published in the Canadian Veterinary Journal and another which has been accepted for publication in the Journal of Veterinary Dentistry. Christopher Sauvé has returned to Edmonton and is looking forward to working with his peers in the veterinary community to provide advanced dentistry and oral surgery options for their patients, helping by providing continued education opportunities and an open line of communication with his colleagues regarding case management, equipment, x-ray interpretation, etc.

**Seminar Date:** Tuesday, December 1, 2020
